Gov. Brown's \$52 billion
transportation package
up for vote tomorrow

**Call your State legislator in
support**

The \$52 billion package will increase the State's gas tax over ten years for the first time in 23 years.

Governor Brown's ambitious transportation proposal is aimed at repairing State and local roads and bridges, funding transit, improving trade corridors, and adding bicycle and pedestrian lanes. The bill requires 2/3 vote to pass in the Legislature and is up for a vote tomorrow.

The new revenue would come from multiple sources:

- Gas taxes would rise to 30 cents per gallon, and diesel to 36 cents per gallon.
- Sales tax on diesel would be hiked to 9.75%.
- New annual fee on vehicles would be assessed based on a sliding scale of value.
- Electric cars would be assessed \$100 annual fee to recuperate missed gas taxes.

CCA recognizes the region's, as well as the State's, need to repair our aging transportation
